

Criteria:

Names that reflect a local historic or cultural significance. (i.e. A locally significant building or person which had a strong influence on the development of the area during the historic period).

The historical common name used for the alley. (i.e. Typically referencing a physically defining feature within the alley evident during the historic period; or a name reflecting the historic use of the alley; or the name of a historic geographic area within the vicinity of the current alley).

For the purposes of naming alleys “historic period” will be defined as 1950 or earlier.
